

Welcome to PIONEER OFFSHORE SOLUTIONS

At PT Pioneer Offshore Solutions, our team is the key to success. Experienced and skilled, we handle projects in the oil & gas and marine industries.

For years, we've been a trusted name in offshore services, delivering efficiency, reliability, and top-tier expertise. With precision and dedication, we ensure quality, safety, and on-time completion in every repair and fabrication job.

Partner with us for reliable solutions from a team committed to excellence.

VISION OUR VISION

Our vision is to be a global leader in the oil & gas, marine, and steel fabrication sectors, known for our unparalleled quality, innovation, and sustainability practices. We strive to set the benchmark for excellence in our industries, driving growth through cutting-edge technology, environmental stewardship, and a relentless commitment to exceeding customer expectations. By embracing challenges as opportunities for growth, we aim to shape a brighter, more sustainable future for our company and the communities we serve.

MISSION OUR MISSION

Our mission is to be a leading provider of high-quality and sustainable solutions in the oil & gas, marine, and steel fabrication industries. We are committed to innovation, safety, and environmental responsibility, delivering excellence in every project we undertake. Through our expertise and dedication, we aim to exceed customer expectations, foster long-term partnerships, and contribute positively to the industries we serve.

OUR SERVICES

Our company provides comprehensive services encompassing ship repair, steel fabrication, piping systems, and specialized welding, including exotic materials. We offer a complete solution for all your marine and industrial needs.

- Ship Repair Services
- Steel Fabrication
- Piping Systems
- Specialized Welding (Including Exotic Materials)
- Non-Destructive Testing (NDT)
- Mechanical Services
- Hydro Testing
- Precision Machining

TRACK RECORDS

1. Crane Jib renewal & reinstallation.
2. Structure Module fabrication for Ceres Project in Batam.
3. Aluminum Pontoon Fabrication for Australian client in Batam Yard.
4. Stainless steel Piping Fabrication for Singapore Client.
5. Thruster component welding.

OUR COMMITMENT

Quality, safety, and timely project completion ensures client satisfaction and long-term partnerships. We utilize advanced technology and highly skilled personnel to deliver exceptional results across all our service areas.

OUR SERVICES

Ship Repair Services

- Hull Repair & Maintenance: Including damage assessment, plating repairs, structural strengthening, and corrosion protection.
- Engine & Machinery Repair: Overhaul and repair of main engines, auxiliary machinery, and other onboard systems.
- Outfitting & Interior Repair: Renovation and repair of cabins, galleys, and other deck fittings.
- Underwater Repairs: Underwater hull inspections and repairs.

Steel Fabrication

- Custom Steel Fabrication: Fabrication of steel components and structures to precise specifications.
- Welding & Cutting: Using various welding techniques, including MIG, TIG, and SMAW, for high-quality welds.
- Plate Rolling & Forming: Precise rolling and forming of steel plates to create complex shapes.
- Structural Steelwork: Fabrication of steel structures for oil & gas and offshore applications.

Piping Systems

- Piping Fabrication & Installation: Fabrication, installation, and testing of piping systems.
- Pipe Welding & Testing: High quality pipe welding and non-destructive testing (NDT) to ensure leak-free systems.

Specialized Welding (Including Exotic Materials)

- Exotic Material Welding: Expertise in welding materials such as stainless steel, super duplex, titanium, Inconel, and other high-performance alloys.
- Orbital Welding: Automated orbital welding for precise and consistent welds in piping and other applications.
- Submerged Arc Welding (SAW): High-speed, high-quality welding for large-scale projects.

Non-Destructive Testing (NDT)

- Comprehensive NDT services to ensure weld quality and integrity.

OUR SERVICES

Mechanical Services

- Mechanical Repair & Maintenance: Repair and maintenance of mechanical equipment and systems.
- Component Overhaul: Overhaul and repair of pumps, compressors, valves, and other mechanical components.
- Alignment & Balancing: Precision alignment and balancing of rotating equipment.
- On-site Machining: On-site machining services to repair damaged components.

Hydro Testing

- Pressure Testing: Pressure testing of piping systems, pressure vessels, and other equipment.
- Hydrostatic Testing: Hydrostatic testing to verify the integrity of pressure-containing components.

Precision Machining

- CNC Machining: High-precision CNC machining for the fabrication of complex components.
- Turning & Milling: Precise turning and milling operations for various materials.
- Grinding & Finishing: Surface grinding and finishing to achieve precise tolerances.

Logistics services

- Experience seamless operations with our integrated logistics services. We handle everything from customs clearances and transportation to final delivery, saving you time and resources.
